

Features	Benefits to you
Members can be selected Randomly	Ensures impartial treatment during the member selection for picket duty
Members can be selected by Proximity using their zip code	Imagine the ability to "tell" the system to "find me 100 members within 5 miles of the picket location."
Mail ready Postage Paid Postcard	No stamps to apply, just print and mail. Lowers cost of mailings and saves time.
Picket Site Information Database	Provides history of all picket sites used by the system. MPMS automatically prints the current site information on the 'Notification of Service' postcards for each member.
Tracks History of Address Changes	MPMS tracks change of address from sources such as post office, benefits office and membership request.
Notice Periods with History	Members are given four different opportunities to fulfill annual picket obligation.
Receipt of Service	Each member is assigned a unique receipt number as proof of service.
Report Generator	The system features over 20 reports & user definable queries.

Dear Organizer,

Can you answer *all* these critical questions with a **Yes**?

- Are you turning your membership out consistently in numbers to be effective?
- Are you getting the visibility that your union needs in order to have the clout that is required to truly serve the needs of your membership?
- Can you effectively mobilize your membership on short notice even with limited manpower?
- Can you produce productivity reports on each picket line?

The answers to these questions are critical. If even one answer was **No**, we can get you to **Yes**!

Mandatory Picket Management System™

A custom written computer program designed to make managing picket activity a breeze. The system was designed to select each eligible member impartially and efficiently. It does this by:

- **Selecting members Randomly or,**
- **Selecting them by Local or,**
- **By Proximity to the picket site or,**
- **By Political affiliation, etc.**

Here's how the system works:

Mandatory Picket Management System™

Members are selected from MPMS database

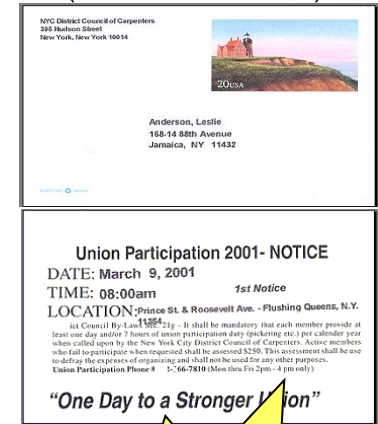

Selected Members sent from database to high-speed card printer.

Members show up like never before!

(Front & Back shown)

Postage paid
Postcard ready for the mailbox!

The system **can be customized** to further meet your exact needs.
